## **Winslow Indian Health Care Center Drive-thru COVID-19 Community Outreach Vaccination Clinic in Leupp, Arizona**

**LEUPP, Ariz.** — On Tuesday, Winslow Indian Health Care Center (WIHCC), in collaboration with Navajo Nation Community Health Representatives, Navajo Nation Health Education Program and Navajo County Sheriff's Department, scheduled 33 appointments for the Moderna COVID-19 Vaccine. With no wait time, a total of 31 WIHCC patients received their first dose of Moderna Vaccine at the Leupp Field Clinic. WIHCC reports total doses administered is currently over 11,700; Over 6,500 patients have at least one dose and about 5,200 patients have both doses. WIHCC is exemplifying what can be accomplished by listening to our public health experts and working together as a team. Let's reach Community Immunity!

"I'd like to thank all involved making the Leupp Community Outreach Vaccination Clinic a success. If you have not scheduled your COVID-19 Vaccine appointment yet, call 928-289-1930 to receive your vaccine at either Birdsprings Chapter House on April 1, 2021 or Jeddito Chapter House on April 6, 2021 or you may schedule it at WIHCC Winslow Facility" says Keanu Frazier, Mobile Unit Coordinator, who is coordinating all Community Outreach Vaccination Clinics within the Winslow Service Area.

"It is important that we continue to work to prevent the spread of COVID among our staff and community. I would like to encourage anyone who has not been vaccinated to consider getting your vaccine as soon as possible. It is the best way to protect yourself, your loved ones, and your colleagues from contracting COVID. The data clearly shows the available vaccines are safe and effective. In addition,

please continue to wear your mask at all times, socially distance, and wash your hands often,” states Dr. Sarah Coleman, WIHCC’s Chief of Medical Staff.
